## EXPERIENCE

### IIIT HYDERABAD

#### Developer Intern

📅 January – April

📍 RCTS (IIIT-H)

- Worked on SELSCA (System for Effective Learning and School Complex Administration).

## PROJECTS

### SELSCA (System for Effective Learning and School Complex Administration)

- A school management platform designed to facilitate the management of students (marks, attendance), teachers, and subjects.
- **Technologies:** React.js, Express.js, MongoDB, Node.js
- **Role:** I focused on the SELSCA development, the generic adaptive data dashboard, and general development exploration.

### Face Recognition-based Attendance System

- This system enhances security and streamlines attendance tracking in educational institutions.
- **Technologies:** Python, OpenCV
- **Role:** Developed and trained a machine learning model.

### Data visualisation

- Visualising the data which is taken from user as in the format of Excel or in the form type and shows the analytical results of the data.
- **Technologies:** React.js, flask, MongoDB
- **Role:** Developed User Interface and maintained DataBase.

## ACHIEVEMENTS

- Secured three months internship at IIIT-H in 2024.
- Placed in the top 5% of applicants for an eight-month internship at IIIT-Hyderabad in 2023.
- Earned A grade in FMML program conducted by IIIT-H in 2022.

## ORGANIZING SKILLS

- Served as coordinator in the KIET HUB, managing standards for 80 students.
- Undertook the role of Team Lead for IIIT Internship programme, coordinated a team of 8.
- Served as the mentor for a high-profile hackathon, overseeing the execution and performance for approximately 100 students on each occasion.

## EDUCATION
